

WHO WE ARE

Connor Investment Real Estate is a Houston-based private equity real estate firm focused on risk-mitigated investment strategies in residential, industrial, commercial development, and ready-to-develop real estate.

WHAT WE DO

Connor Investment Real Estate sponsors investment partnerships for residential development in Texas. We facilitate capital structures allowing for the acquisition and development of land, residential lots, and build-to-suit industrial. Our team’s understanding of land development, local market conditions, and capital markets provides a compelling combination of skills to assist with structuring new development.

WHY INVEST WITH CIRE?

- Strong, consistent, risk-adjusted returns
- Risk is mitigated through pre-planned exit strategies with limited risk
- Tax-efficient investment structure
- Complete diversification beyond stocks and bonds
- Projects are targeted at the optimal stage of growth for maximum returns
